Celebrate Modern Agriculture

What- Juried Art Exhibit/ Sale

Where- Ontario AgriCentre, 100 Stone Rd. West, Guelph

When- November 8, 2007 to January 15, 2008.

Did you know that Agriculture and Food is Ontario's second largest industry? Modern agriculture is much more than just a provider of our food. It is an ever more important and essential element of our modern society.

Modern farming methods help protect our environment in many ways. By using plant sources for feedstock we can replace petroleum products, lower greenhouse gases, improve biodegradability, reduce imports, and support our local economy.

Want to know more about modern agriculture? Visit www.caringfortheland.com or www.farmissues.com. Farm tours will also be organized. If interested, call (519) 884-0575 or (866) 738-7861 as soon as possible to register.
